

HARDIK KANJARIYA

FULL STACK DEVELOPER

SUMMARY

I am a highly skilled Full-Stack Developer proficient in Angular, .NET Core, and PHP with extensive experience in building scalable web applications. Currently working at Kale Logistics Solutions as a Programmer Analyst, I excel in software architecture and problem-solving. My passion for automating workflows and innovative technologies drives me to create impactful and efficient solutions.

EXPERIENCE

Kale Logistics Solutions

Jamnagar, IN

Programmer Analyst

06/2024 - Present

Kale is a ubiquitous logistics software company that can offer cloud-based solutions for different processes and purposes in the logistics industry.

- Develop and maintain enterprise-level web applications using Angular (latest version) and .NET Core Web API.
- Implement Infragistics Angular components for enhanced UI/UX experiences. Design and optimize EF Core database models, writing efficient LINQ queries for seamless data operations.
- Collaborate with cross-functional teams to ensure scalability, security, and performance of applications.
- Automate development workflows, reducing repetitive tasks and improving efficiency

INTERESTS

- **Coding & Full-Stack Development**
- **Game Development**
- **Tech Exploration**
- **Nature & Spirituality**
- **History & Culture**
- **Self-Improvement**

KEY ACHIEVEMENTS

- **Developed Full-Stack Enterprise Applications at Kale Logistics**

Successfully delivered production-grade modules using Angular 19 and .NET Core Web API, working with a global team (India + Australia). Handled complex logistics workflows with efficiency and performance tuning.

- **Created Personal Drop shipping Platform**

Built a fully functional e-commerce store using **Laravel, Angular, and MySQL**, featuring a cashback wallet system. Products sourced from Meesho via manual or semi-automated methods with minimal startup budget.

- **Launched Modern Portfolio Website**

Deployed My Angular 20 portfolio hardikkanjariya.tech with sleek UI, project showcases, and a contact interface—boosting professional presence and personal branding.

- **Freelance Projects in Laravel + Angular**

Delivered custom client solutions using Laravel and MySQL/PostgreSQL. Managed complete lifecycle from requirement gathering to deployment on shared/VPS hosting.

- **Started Game Development Journey**

Began developing my own 2D/3D games using Unity Engine. Focused on storytelling, simulation, and peaceful game genres with a plan to enter the indie game market.
